

PVC COATED BEAM CLAMPS

Description:

Calbond PVC coated beam clamps are used to securely support conduit runs by attaching them to beams, angles, trusses and other structural members. They are available in four different styles:

Right Angle: attaches the conduit run at a 90 degree angle to a beam or structural member

Parallel: attaches the conduit run parallel to a beam or structural member

Edge: attaches the conduit run at a 90 degree angle perpendicular to a beam or structural member

Features:

- Exterior PVC coating thickness is a minimum 0.040"
- Right angle clamps are supplied with an adjusted size U-bolt and encapsulated nuts
- Beam clamps are specifically sized to fit Calbond PVC coated conduit
- Parallel clamps available in sizes ½" to 4"
- Edge clamps available in sizes ½" to 1"
- Right angle clamps available in sizes ½" to 4"

PVC COATED RIGHT ANGLE CLAMPS

Item Number	Trade Size	Weight Per 100 (lbs)
